

Come Ride

# THE BITMOJI WAVE

Creating a fun, interactive virtual office/classroom equipped  
for the virtual learning experience.

Presentation by:  
Jessica Cooper, M.S.

hi

Jessica Cooper

Hi! I'm Jessica Cooper, your facilitator for this presentation. I love technology and incorporating tech into my school counseling program. I hope you get some useful tips and tools from today's presentation. Let's go!

\*

Born & raised in Decatur, GA

\*

B.A. Sociology from Georgia State

\*

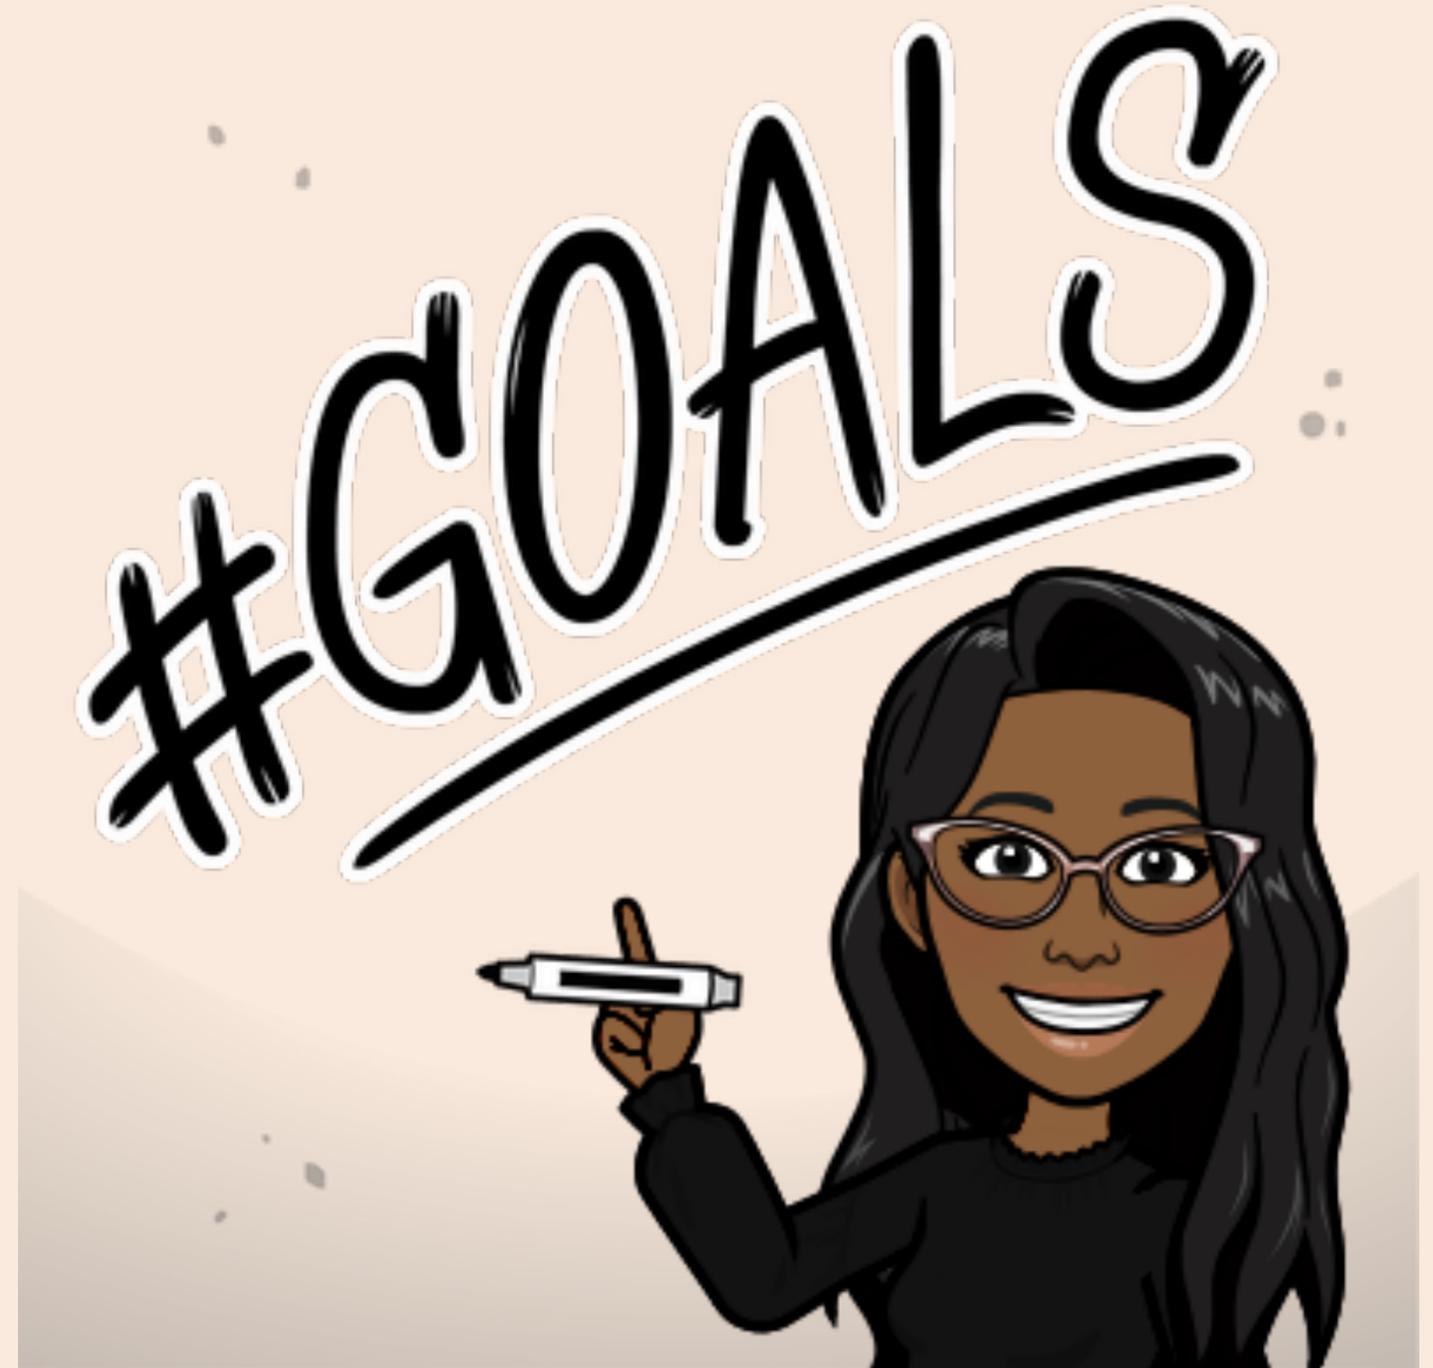

M.S. School Counseling from Mercer

\*

8th Grade Counselor

# Learning Objectives

- 1 Create a virtual classroom/office
  - 2 Add links to files & websites
  - 3 Publish your virtual classroom/office
- 

# The Virtual Office

# Benefits of a Virtual Office

- \* **Students have easier access to your materials and resources**
- \* **Update the resources when necessary for students to access**
- \* **Offices can be published to school websites, publications, etc.**

Let's Get Started!

# Step 1: Create your Bitmoji

**DOWNLOAD THE BITMOJI APP  
(ANDROID & IPHONE ACCESSIBLE)**

**DOWNLOAD THE BITMOJI EXTENSION  
VIA THE GOOGLE CHROME BROWSER**

# Step 2: Open Your Application\*

**Open Google Slides or  
Microsoft PowerPoint**

# Step 3: Import Images \*

**Import Transparent Background Images to  
Build the Virtual Office/Classroom**

**Use the website [remove.bg](https://remove.bg) to remove the  
background from any image.**

*\*Free templates with office/classroom images will be provided for session attendees!*

# Step 4: Insert Bitmoji & Links

- \* Copy & Paste Bitmoji onto Slide
- \* Insert Links to Resources/Websites

# Step 5: Publish Virtual Office

**Save as a Google Slide, PPT, or  
PDF**

**Publish to Google Classroom,  
Microsoft Teams, etc.**

# Q&A Session
