CALLING ALL NEW SCHOOL COUNSELORS!

JOIN US

for a series of three (3) cohort-based workshops focused on distinct themes relating to school counseling leadership, advocacy, and structure. In the fall, we will be working on developing your school counseling program. In the winter, we will focus on use of data, including identifying college and career readiness indicators. In the spring, we will identify tools to assess your program's outcomes, strengths and areas of growth.

THE PURPOSE

- To equip participants with resources, strategies and tools to build a comprehensive school program which aligns with LCAP, MTSS and the ASCA National Model.
- To explore the role of today's school counselors as leaders, change agents and systems thinkers within their schools.
- To acquire skills in assessing programs, including identifying data from the California School Dashboard, to show impact over time
- To grow and learn with regional experts and support from peers by developing a network of professional development.

Note: No refunds after deadline date. No refunds for no-show participants. All cancellations must be made in writing before the deadline date.
