

Grading Practices Project Survey

Educators from Riverside County schools, in collaboration with the College and Career Readiness Unit at the Riverside County Office of Education (California), have initiated the Grading Practices Project. The project team is researching the grading practices of teachers to learn about this important professional competency. The project team has designed a grading practices survey for teachers. Participating in the survey will provide valuable insight into your school/district current grading practices and guide the design of future professional development opportunities.

The benefits of participating in the Grading Practices Project Survey:

- Survey is FREE!
- Customized Survey for schools and districts
- Digital format (SurveyMonkey) with direct link access
- Survey results provided in PowerPoint Presentation format
- Survey results provided in Excel format

Please review the sample survey at -
